\$32,100 has been subscribed toward a S. P. and A. Telegraph Company.

strong editorial sommendation of Judge women suffrage to a vote of the P.T. Serings, who ast upon the bench several years in the Southern District of Mississippi and alluministered the law, the Reporter tells as, with singular ability and fidelity.

Submitting the question of Government, the former has thought proper to offer a constitutional amendment granting authority to that effect. This is a transparent ruse. The amendment proposed in the House

Burgiars invest Viaccourg. As the hot season approaches, thieves, burgiars and rowdies vascale New Orleans, and in their journey north cell at all the river towns. Hence apring and fall; fights and murders occur in Mississippi river towns and cities. Our polles should be on the quixive and spot these risitors.

Cincinnatti items.

Cincinnatti, O., April 24.—The work on the new railroad bridge over towns and cities. Our polles should be on the quixive and spot these risitors. and give them a cordial welcome to the

CROP ITEMS

Save the Warrensburg (Mo.) Standard Our information is to the extent that the prospect for a peach crop is remark-ably slim, and it is feared that the apples also have suffered by the late blighting fronts.

The Columbia (Tenu.) Herald says "All over the county the eye is greeted with the pleasant sight of green wheat-nelds. A larger breadth than usual, we are told, was sown, and we hear no complaint whatever in regard to the prospects of the coming crop. The stand seems to be good."

armers of Morgan county have com-enenced planting corn. Fruit, here, of all a hotel and opera house, and regard it kinds is uninjured. This is the universal as an insult to the sense of the people opinion. The growing crop of winter the set of April, and now promises almost an average yield in this and adjoining countles."

as an insult to the sense of the people to demand one-haif million for the contemplated expenditure of two millions.

The opposition

Watches

AF The extensive use of these Watches is the last fifteen years by Railway Conductor Engineers and Expressmen, the most exact ing of waigh, wearles, has thoroughly demo-strated the strength, steadiness, durability and accuracy of the Waltham Watch. 'S satisfy that class in all these respects, is decide the question as to the real value these time keepers. he settine-keepers.

More than 480,000 of these
Watches are now speaking for themselves in
the peckets of the people—a proof and a
guarantee of their superfority over all others. The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent, more for their watches than is necessary. 50 per cent, more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularise:

Among the many improvements we would particularize;
The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pluion as being the best and faultiess.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by fer the cheapest watch of its quality now offered to the public. To those living in postions of the United States where watchmakers do not abound, watches with the above-mentioned improvements, which lend to insure accuracy, cleantiness, durability and convenience, must prove invaluable.

Every watch gnaranteed by the Company.
